

Matters of Interest From Home and Abroad.

TAUBENECK'S SOUND ADVICE

Needham Knocked Out in Fourteen Rounds.

CONGRESSIONAL PROCEEDINGS.

A Mining Explosion Kills 500 Men—Prominent Railroad Men Before the Senate Committee on Interstate Commerce.

Congressional.

WASHINGTON, Dec. 14.—In the Senate the bill authorizing the removal of the Pima and Gila Indians from the reservation in Arizona to another reservation was reported and placed on the calendar.

The President's veto of last session of the bill to submit to the land claim title of Wm. McCarthur to the rancho Panache Grande in California was laid before the Senate as a special order, and a vote was about being taken on the question, "Shall the bill pass?" when Sanders demanded an explanation on the part of friends of the bill of the reason why it should pass. He explained his own understanding of the matter and one of his objections to the bill being that it rested on the imputation that the judicial and executive departments of the government had been for many years past guilty of wrong doing in the premises. His own position was that even if the executive and judicial departments of the government had declared the original grant valid that it still would not have found the remotest foundation for such provisions as were contained in the pending bill. He thought, therefore, that the Senators should be grateful to the President for having recalled their attention to the bill.

The bill was debated up to 11:30 o'clock, at which time the morning hour expires, and the bill went over until to-morrow.

The anti-option bill was then taken up and George resumed his argument in support of his own substitute for it. In opening his remarks George called attention to the fall of four or five points in the prices of cotton at the New York cotton exchange yesterday and said that the fall was in the nature of a menace because the United States Senate had undertaken to perform a great constitutional duty. He assumed that Senators would treat such threats with due respect or contempt to which they were entitled.

George said that he saw in one of the New York papers that the dealers in futures in that city had undertaken to punish the people because the Senate was considering this bill. Cotton has been made to fall three, four or five points, dealers in futures thereby undertaking to force the Senate to cease the performance of the great constitutional duty. To show that the fall in cotton was purely fictitious, he called attention to the fact that while cotton had gone down in New York corn and provisions had gone up in Chicago. George spoke over two hours and did not finish. The bill then went over without action.

The Senate and House Committee on Immigration held a joint meeting and discussed the bill introduced by Senator Chandler to suspend immigration. It was shown by communications from experts that it would be positively necessary to suspend immigration for a period in order to keep the cholera out of this country next year. The joint committee took no action on the bill but adjourned until Friday, when the representatives of the great steamship lines will be heard.

Daniels' resolution calling for information on the subject of civil service was agreed to and the Senate adjourned.

The Senate bill authorizing the removal of the Pima and Gila Indians from the reservation in Arizona to another was reported and placed on the calendar.

The matter of the passage over the President's veto at the last session of the bill to submit to the Court of Private Land Claims the title of Wm. McCarthur to the Rancho Panache Grande in California came up and was debated at length, but was passed without action.

The publication of 10,000 copies of the President's annual message was ordered.

After business of minor importance the House went into Committee of the Whole on the Army Appropriation bill.

The appropriations carried by the bill are \$24,202,740, against appropriations for the current year of \$24,288,450 and an estimate of \$25,922,950 for the coming year. The bill having been read for amendment, Anthony (Dem.) of Texas offered an amendment providing that any retired officer or retired enlisted man shall not receive such pay if he is receiving pay from the Government in any other official capacity.

Bingham (Rep.) of Pennsylvania strenuously opposed the amendment and referred to the cases of General Sickles and General Rosecrans, to both of whom he paid high compliments. He was ably seconded by Mr. Outhwaite, and the amendment was rejected.

The committee then rose and the bill passed and the House adjourned.

Silver Purchases.

WASHINGTON, Dec. 14.—The Treasury Department to-day purchased \$20,000 ounces of silver at \$0.69 45.

Prominent Railroad Men Before a Senate Committee.

WASHINGTON, Dec. 14.—A number of prominent railroad men, including Mr. Depew of the New York Central, President Roberts of the Pennsylvania, President Ingalls of the Big Four and Chairman Walker of the Trunk lines, were before the Senate Committee on Interstate Commerce to-day to advocate the passage of an amendment to the Interstate law introduced by Callow to modify the existing law so as to authorize railroad companies to form pools under the supervision of the Interstate Commerce Commission and wipe out the penal clause of punishment prescribed, etc. All the gentlemen above named urged that a great majority of railroads of the country were in favor of the proposed movement.

Depew, in the course of his remarks said the New York law preventing pooling was creating trusts. If the law continued five years longer Depew thought there would not be an independent business man in any of the large cities of the United States. This miserable state of affairs is being brought about by a law preventing trusts.

Under the proposed amendment the roads will be authorized to make contracts upon a business basis and could agree upon a rate which will always be the same to the public in discussing existing conditions.

Depew said it would be impossible for manufacturers to exist except at terminal points.

Ingalls spoke to the same effect. If the amendment was passed, said he, it would not result in an increase of rates, but in equal rates and, in many cases, to reduce rates.

Taubeneck's Sound Advice.

TORRANCE, Kan., Dec. 14.—Copies of a letter from H. E. Taubeneck, Chairman of the People's Party National Central Committee have been received here, in which he urges the members of the new party to force the election of straightforward Populist Senators in those States where they hold the balance of power in the Legislature. Taubeneck's letter purports to be in reply to one received from D. B. Hanna of Tacoma, Wash., who wishes to prevent, if possible, any member voting for either a Republican or Democrat.

Taubeneck says: "The great question now is—will the People's party legislators do what it comes to balloting for Senators? Will they be big enough for the position they occupy? Will they remain true to the people who elected them or will they disgrace the States and sentiment of the United States with the tinge of bribery attached to the certificates of election at the State of Illinois did two years ago. Anyone who has not gone through a contest of that kind does not know what he will have to bear. The future of our movement rests with them. They can either make or destroy the party. But it seems to me any one with the fate of Moore and Cockrell before him will never turn back on the people who elected him."

The Sun Juan Gold Fields.

FLAMSTEAD, A. T., Dec. 14.—The excitement over the gold fields in the San Juan river in Utah, one hundred and seventy-five miles northeast of this place, is as great as at any time since the discovery became known. Four outfits left here today. There has been as yet no reliable information as to the extent and richness of the discovery. About one thousand people are on the ground, and there are no provisions, only what are taken in by individuals. It takes from twelve to fifteen days to make the round trip from either Flagstaff or Winslow, the nearest points, to the New Eldorado. Reliable news is expected here every day.

Twelve Mexican Prisoners.

JARRELL, Dec. 14.—The Mexican Consul here says that the bandits after their butchery of the Mexican officers and soldiers Saturday night crossed the Rio Grande into Texas and delivered twelve Mexican soldiers who they captured in the night to the Justice of the Peace at San Lencio, where they are still held as prisoners. The Consul was informed that upon his application for a writ of habeas corpus the soldiers would be released, but he has not yet applied for the writ.

There will be \$20,000,000 in the Treasury.

WASHINGTON, Dec. 14.—Secretary of the Treasury Foster to-day saw Chairman Holman of the Appropriations Committee, Speaker of the Ways and Means Committee and a number of other persons of prominence. He assured several of them that there would certainly be an available balance of \$20,000,000 in the treasury at the close of the fiscal year.

The expenditures for pensions under Cleveland's administration amounted to \$30,000,000. Under the present administration up to December 1st the expenditures for pensions exceeded \$43,000,000. The late President Garfield, when a member of Congress from Ohio, apologized for advocating the passage of a bill increasing the annual appropriation for pensions to \$20,000,000, and said that was the highest figure pensions would ever reach. He little knew the rapacity of the pension claims agent.

The expenditures for pensions under Cleveland's administration amounted to \$30,000,000. Under the present administration up to December 1st the expenditures for pensions exceeded \$43,000,000. The late President Garfield, when a member of Congress from Ohio, apologized for advocating the passage of a bill increasing the annual appropriation for pensions to \$20,000,000, and said that was the highest figure pensions would ever reach. He little knew the rapacity of the pension claims agent.

The publication of 10,000 copies of the President's annual message was ordered.

After business of minor importance the House went into Committee of the Whole on the Army Appropriation bill.

The appropriations carried by the bill are \$24,202,740, against appropriations for the current year of \$24,288,450 and an estimate of \$25,922,950 for the coming year.

The bill having been read for amendment, Anthony (Dem.) of Texas offered an amendment providing that any retired officer or retired enlisted man shall not receive such pay if he is receiving pay from the Government in any other official capacity.

The committee then rose and the bill passed and the House adjourned.

Silver Purchases.

WASHINGTON, Dec. 14.—The Treasury Department to-day purchased \$20,000 ounces of silver at \$0.69 45.

The Marquis of Salisbury and other English Conservatives propose making the silver question an issue in British politics. The Irish tenantry and English farmers and manufacturers are all bi-metallists.

Monetary Conference.

BAUSSEZ, Dec. 14.—It is considered probable that the International Monetary Conference will not adjourn until some time next Spring, or perhaps only for a few weeks. The bimetalists from India and elsewhere are decidedly aroused over what they regard as the duplicity of the other side. It is claimed that Great Britain is using Germany and Austria to accomplish the purposes that England does not dare openly to urge, for fear of offending India as well as the British bimetallic sentiment.

A special committee of the conference has been discussing bimetallic proposals. Wm. Houldsworth of the British delegation and one of the Belgian delegates, Allard.

Tirards was summoned to France to accept the office of Minister of Finance in place of Rouvier, resigned, and it has interrupted the discussion of delegate Folville's proposal for the issue of warrants on deposits of silver.

WHAT IS SCROFULA?

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or afflictions, for very few persons are entirely free from it.

Dawson said it would be impossible for manufacturers to exist except at terminal points.

Ingalls spoke to the same effect. If the amendment was passed, said he, it would not result in an increase of rates, but in equal rates and, in many cases, to reduce rates.

Taubeneck's Sound Advice.

TORRANCE, Kan., Dec. 14.—Copies of a letter from H. E. Taubeneck, Chairman of the People's Party National Central Committee have been received here, in which he urges the members of the new party to force the election of straightforward Populist Senators in those States where they hold the balance of power in the Legislature. Taubeneck's letter purports to be in reply to one received from D. B. Hanna of Tacoma, Wash., who wishes to prevent, if possible, any member voting for either a Republican or Democrat.

Taubeneck says: "The great question now is—will the People's party legislators do what it comes to balloting for Senators? Will they be big enough for the position they occupy? Will they remain true to the people who elected them or will they disgrace the States and sentiment of the United States with the tinge of bribery attached to the certificates of election as the State of Illinois did two years ago. Anyone who has not gone through a contest of that kind does not know what he will have to bear. The future of our movement rests with them. They can either make or destroy the party. But it seems to me any one with the fate of Moore and Cockrell before him will never turn back on the people who elected him."

Hood's Sarsaparilla

Sold by all druggists, \$1. six fozs. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, proves itself to be a potent and peculiar medicine for thy disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Naughton, N. J.

BREVITIES

Shot at Lunge & Co's m'ts.

Suits at Rashak's at from \$5 to \$12.

Geo. McCullough went below last night.

Mrs. L. Fredrick has returned from San Francisco.

M. D. Foley is registered at the Palace in San Francisco.

The indebtedness of the Com. Cal. & Va. amounts to \$1,000.

Com. Virginia has declared an Irish dividend of 50 cents a share.

Crockery and glassware at San Francisco prices at Lunge & Schmitz's.

Teeth extracted and filled painlessly or no charge. Porter Brothers.

For painless dental operations go to Porter Bros., Commercial Row.

P. B. Dill and wife of Cirron passed through for California last evening.

Mrs. W. V. Smith of Virginia City was yesterday admitted to the Asylum.

Teeth extracted painlessly, \$1; old method, 25 cents. Porter Brothers.

Go to the Palace Bakery for fresh whole-grain bread, cake, pie and sandwiches.

The west bound overland, due here at 9:30, was reported four hours late last evening.

Plumbing, Heating and pipe work done at the lowest possible prices by Lunge & Schmitz.

Porters are usually scrofulous and need Ayer's Straparilla to cleanse the blood.

There are two ladies in town anxious to pose for the silver statue of Justice.—Carson Appeal.

Geo. R. Mosler, foreman of the JOURNAL office, moves into his new house on Powell's Addition to-day.

The people of this country last year mailed 32,000 letters upon which no address was inscribed.

Geo. S. Nixon of Winchusen, Chairman of the Silver party State Central Committee, is on the Comstock.

"Cured my cough like magic" is the frequent expression of those who testify to the merits of Ayer's Cherry Pectoral.

If you wish to pass a pleasant afternoon or evening, and at the same time enjoy healthful exercise, visit the skating rink.

Mr. and Mrs. H. Fredrick will hold a reception at Masonic Hall on Sunday evening next. Invitations to the same are now out.

Mr. and Mrs. H. M. Yerington and Mrs. E. Yerington arrived on last evening's V. & F. train and charged cars for San Francisco.

Aurora, which in the sixties had over 5,000 inhabitants, and still has many handsome brick buildings, now has but 25 inhabitants.

R. Sadler, the leading merchant and Democratic politician of Eureka, Nevada, passed through town route for Carson yesterday morning.

In New York a man has been held for examination in \$500 but by the United States Commissioner for during another man for \$750 by postal card.

J. W. Purdy of Carlton in crossing a street to board a train at Ely ran into a "switch," cutting his forehead quite severely. Says the Inquirer.

Whatever may be the sense of blanching, the law may be referred to its original color by the use of that potent remedy, Hall's Vegetable Soother Hair Remover.

An attorney says that J. H. P. Irish's name is being used for appointment by President Cleveland for a treasury of the Treasury or Comptroller of the Land Office.

At S. D. Wash., one day last week, six inches of snow fell, while the rose bushes in the gardens were in full bloom. The picture presented by nature was as beautiful as it was novel.

P. Purdy was up before Justice Lynn yesterday charged with obtaining money fraudulently. He was bound over to appear before the next Grand Jury with bonds fixed at \$500.

In Grass Valley the other day Mrs. Hattie Winn was held up by an unknown man, who demanded her money. As she had none about her he took revenges by cutting off her hair close to the scalp.

Chas. Blithen of the skating rink is making arrangements for his grand skating carnival, which will take place at the rink Friday evening, January 13th. Elegant prizes will be offered, good music furnished and a pleasant time accorded all attending.

THE MONTANA STATUE.

Miniature Models to be Sold—Proprietary of Miss Rehan, the Model. Miss Ada Rehan, the Irish actress, has been selected as the model for Montana's silver statue of Justice, which is to be exhibited at the World's Fair. The selection of Miss Rehan over other celebrated beauties has caused much gossip and some scandal. It is now stated that Colonel Harvey and Sculptor Park, who had much to do with the selection of the model, are preparing to manufacture 1,000,000 small counterparts of the Montana statue for which Miss Rehan is the model, which are to be sold at the Fair at \$1 apiece. Each small statue is to contain about 75 cents worth of silver, and it is expected the profit accruing from the large sale will be very great. After the Chicago Fair gets through with the original Adah Rehan statue it will be sent the round of dime museums, and in fact there will be no end of money making. Of course it remains to be seen what Mr. Daly will say to all this.

THE MODEL'S PROPORTIONS.

"What are Miss Rehan's proportions?" was asked of the sculptor.

"Artists do not measure by vulgar inches," said Mr. Park, "but by hands and other result measurement. Now, Miss Rehan is just seven and one-half times the length of her head, which is the perfect height. Her shoulders are just twice the length of her head across, which is the perfect width. Now, here are some of my studies of Miss Rehan." And Mr. Park selected a half dozen pen-and-ink sketches of his model. These life-size profiles, half-profiles and full-faced views, "The average measurement is seven heads. The Venus de Medicis is eight, but the head is very small. About seven and one-half times the length of her head, which is the perfect height. To a Journal reporter he narrated some of his experiences while crossing the Rocky Mountains in a foot of snow and the great Nevada desert where, at one time his horse went two days without water, refusing to taste the little along the route which was impregnated with alkali."

Mr. Waeschler will remain here today, and resume his journey to-morrow via the Beckwith Pass. He expects to have considerable trouble in crossing the Sierras, which has been represented to him as a dangerous undertaking.

TRAVELING STONES.

Seamings for Some of Dan De Quille's Creations.

The Hailey (Idaho) Times says J. M. Woodworth left Wood River shortly after election to hunt up the location of a deposit of so-called magnetite grades, or traveling stones, which he discovered some twenty or more years ago. Ever since the first mention of the World's Fair Mr. Woodworth has thought of the stones as something so unique that he greatly wished to add some of them to the Idaho exhibit, so he rolled up his bedding, provisioned a wagon for six to thirty days, a driving sled, a team and started for Nevada. He got by way of Mountain Home, Bruneau, the Owyhee country to the desert north of Winnemucca, where he found the stones back in the '70s on the top of a mountain. There, Mr. Woodworth says, could not be found apart except by main strength. Whenever two of them were dropped they would be sure to roll toward one another.

J. A. Woodworth is an old-time Nevadan and ought to know that the "traveling stones" is one of Dan De Quille's romances. There are geodes on the Quinn river or Black Rock desert in Humboldt county, but they have no magnetic properties whatever.

The Situation at Con. Va.

There is nothing now to report in the situation of affairs at the Con. Va. mines. The men employed at the O. & C. and Con. are still gagged in putting to brick and cement Lukheia in the various drifts, all material being taken underground through the C. & C. shaft. No regular shifts are employed in the mines but those engaged in bulkheading, and ore extraction has entirely ceased. Steam is still kept up at the Con. Virginia. The volume of gas coming up through the shaft is decreasing which would denote that the shafting out of the air by bulkhead from the various drifts is tending to smother the latent fire in the old stopes below the 1850 level. When active operations will be resumed is a matter of conjecture.—Chronicle.

Skating and Dancing.

The usual Saturday night dance in connection with the skating rink will take place Saturday evening. The last one was the most successful thus far given, Mr. Biekin being complimented in his management of the same; and no effort will be spared to make this even more sociable. Skating will begin at the usual hour and continue until 9 o'clock, when those so disposed will adjourn to the upper floor of the Pavilion, where excellent music will be furnished for dancing until 12 o'clock. Those preferring to skate may do so until the usual closing time.

Why Throw Away Money?

What method is there in throwing away money in purchasing clothing, boots, shoes, underwear, shirts, tobacco, cigars, blankets, and in fact numbers of other necessities, when by purchasing them at Russell's auction rooms, two doors north of Coffey & Lovewell's store, you can save from 50 to 75 per cent on every purchase. There are no "hobby" articles offered, but as due a stock of gentleman's wear as can be found anywhere in the State. The prices received at night govern the price for the succeeding day. Call around and secure bargains.

Infirmities.

"Woman's infirmities to women" is the astounding paragraph that heads a dispatch in the Virginia Enterprise. This is a little the worse that any newspaper writer in recent years has been guilty of. Such a rare consistency to the actual meaning of a word is only equalled by the young lady whose modesty forbade her saying telegraphy, but, however, was able to make herself understood by calling it "telegraphy."

Will Recover.

Prof. Reid, who attempted to commit suicide night before last, is rapidly recovering. The wound from the pistol ball, which glanced from his ribs, is not at all serious, and it is probable that he will swallow but a small amount of carbolic acid, which was so diluted with glycerine that it will act as a considerable neutralizer.

A Chinaman was arrested at Austin on complaint of an Indian, who charged the Mongolian with selling him whisky. This says the Silver State, is something unheard of before, as the average Indian would rather be hung than give away a person who forced him with firewater.

An Explosion Kills 500 Miners

London, Dec. 14.—A fearful explosion occurred this morning in the Bamford colliery at Wigton and not less than 500 lives were lost. The men went to work this morning at the usual time after the mine had been inspected. Shortly afterward a fearful explosion shook the earth and a cloud of smoke shot up through the shaft. It is supposed that the explosion was caused by the accumulation of coal gas which the inspector overlooked on his rounds. As soon as the explosion occurred the miners rushed to the mouth of the pit, and there were the usual heart-rending scenes when such accidents occur. Steps were immediately taken to ascertain the extent of the disaster and many volunteers were sent to explore the pit.

Despite the efforts to extinguish the fire, the flames spread to the engine house at the head of the air tunnel. This stopped pumping air into the mine and ad led greatly to the peril of those who were in the pit. The fire was not subdued until 5 o'clock this afternoon. Some little time after the bodies of twenty miners were brought to the surface by rescuing parties.

Rescue parties report horrible scenes in the mine. In the main roads bodies lay in rows and threes, as the men fell. Large sections of the roof and galleries have collapsed. Amidst the ruins were found mangled bodies and half-burned limbs. The ruins blocked many parts of the mine and therefore the men searching for bodies are unable to give any definite idea of the number lost.

Several miners, who were just alive when found, died on the way to the surface or shortly after being taken from the ear. The work of rescue will be continued through the night, although there is little hope that more men will be taken out alive.

A new and complete selection of spectacles and glasses of all kinds, including lenses for the near sighted at McCullough's drug store.

W. Pininger has just received one of the largest and choicer selections of Xmas goods one could wish to look over.

A new and complete selection of spectacles and glasses of all kinds, including lenses for the near sighted at McCullough's drug store.

For your note, letter, legal and foulscap paper, patronize O. J. Brooks, who carries writing tablets of all styles and sizes.

A new assortment of Heath & Milligan's paints, pure raw and boiled linseed oil and white lead at reduced prices at J. B. McCullough's.

Needham Knocked Out in Fourteen Rounds.

SAN FRANCISCO, Dec. 14.—Danny Needham, ex champion welter weight, and Billy Smith of Boston fought at the Pacific Athletic Club to-night for a \$2,000 purse. The fight lasted fourteen rounds and resulted in a victory for Smith.

Smith started in with fast and furious fighting and kept it up throughout, taking advantage of every opportunity and gradually wore down Needham. The latter, after being knocked down twice in the fourteenth round, was carried to his corner by his seconds.

Smith's eyes were closing from the effects of some of Needham's blows, and he was bleeding freely, but was comparatively fresh.

Another Railroad in Nevada.

SAN FRANCISCO, Dec. 14.—A Denver special says that capitalists will immediately begin the building of a new line due north from Gaffs on the Atlantic and Pacific. The first branch will be about one hundred miles long and will extend into Southern Nevada. The territory to be entered is extremely rich in mineral, but has been little explored. The new line will be called the Nevada Southern. Rock Island officials are interested in the line.

A York paper says that Frank C. Purdy of that place, and formerly one of Reno's popular young men, is to be a deputy in the County Clerk's office in Humboldt county, Cal., a position for which his pleasant manners and skill as a penman fit him admirably.

The White Pine News says: About four inches of snow fell at Ely Saturday night and the storm continued all the next day, adding two inches more to the fall. Since then the weather has been clear and cold, the mercury ranging between zero and 10 degrees below every night.

When a resident of Juab county, Mo., went to cast his vote on election day, he found that he was several sizes larger than the voting booth. The booth was old and crooked for him a screen made of horse blankets.

Overcoats.

Fine Milton and Baver overcoats made to order for \$20 and upwards. Do not fail to see the elegant samples at Wanamaker's & Brown's, Virginia street, next to Justice Court.
